# Fund objectives

The objectives of the fund are, by March 2025:

To **build the evidence** to identify scalable and sustainable place-based interventions that work in increasing regular volunteering and reducing chronic loneliness.

To **increase the proportion of people** in targeted high-deprivation local authorities who volunteer at least once a month.

To **reduce the proportion of chronically lonely people** in targeted high-deprivation local authorities who lack desired level of social connections.

To enable targeted high-deprivation local authorities, and the local voluntary and community sector in these places, to **implement sustainable systems and processes** that encourage volunteering and tackling loneliness.
