

Background

This group has been set up specifically for women suffering from issues such as domestic violence, alcohol and substance misuse and other mental health issues. The group was established as there was no other provision of this type in the area and runs weekly with a variety of events and trips taking place. Around 12 women regularly attend the sessions.

Support from DCA - Governance and Funding

We have assisted this group to implement an appropriate constitution, and with completing successful funding applications to make the group more sustainable. We have provided trustee training to make committee members aware of their responsibilities. Trustees were also able to speak to potential funders at the DCA funding fair and attended a share and learn session on licensing which they found very helpful in running their bingo sessions.

"We have found the support a massive help as funding forms may be confusing. DCA have supported us throughout the whole process whenever we have needed them."

Trustee, Women's Tea and Chat
